

BENETECH®
SAFE MATERIAL HANDLING SOLUTIONS

Load Zone & Containment Solutions

Economical Solutions For Your Transfer Point Needs

- › Reduce Loadzone Spillage & Dust
- › Reduce Conveyor Maintenance Cost
- › Increase Operating Efficiency
- › Increase Plant Safety

BENETECH. **MaxZone**[®] *PELLET MILL*

Modular Skirtboard and Belt Support System

Seals load zone to reduce airborne and fugitive dust, preventing product loss and spillage while improving material flow.

ECONOMICAL

- The answer for your transfer point and load zone needs when budget and time constraints rule out total system replacement.
- Can be retrofitted to accommodate and enhance an existing system.

MODULAR SYSTEM

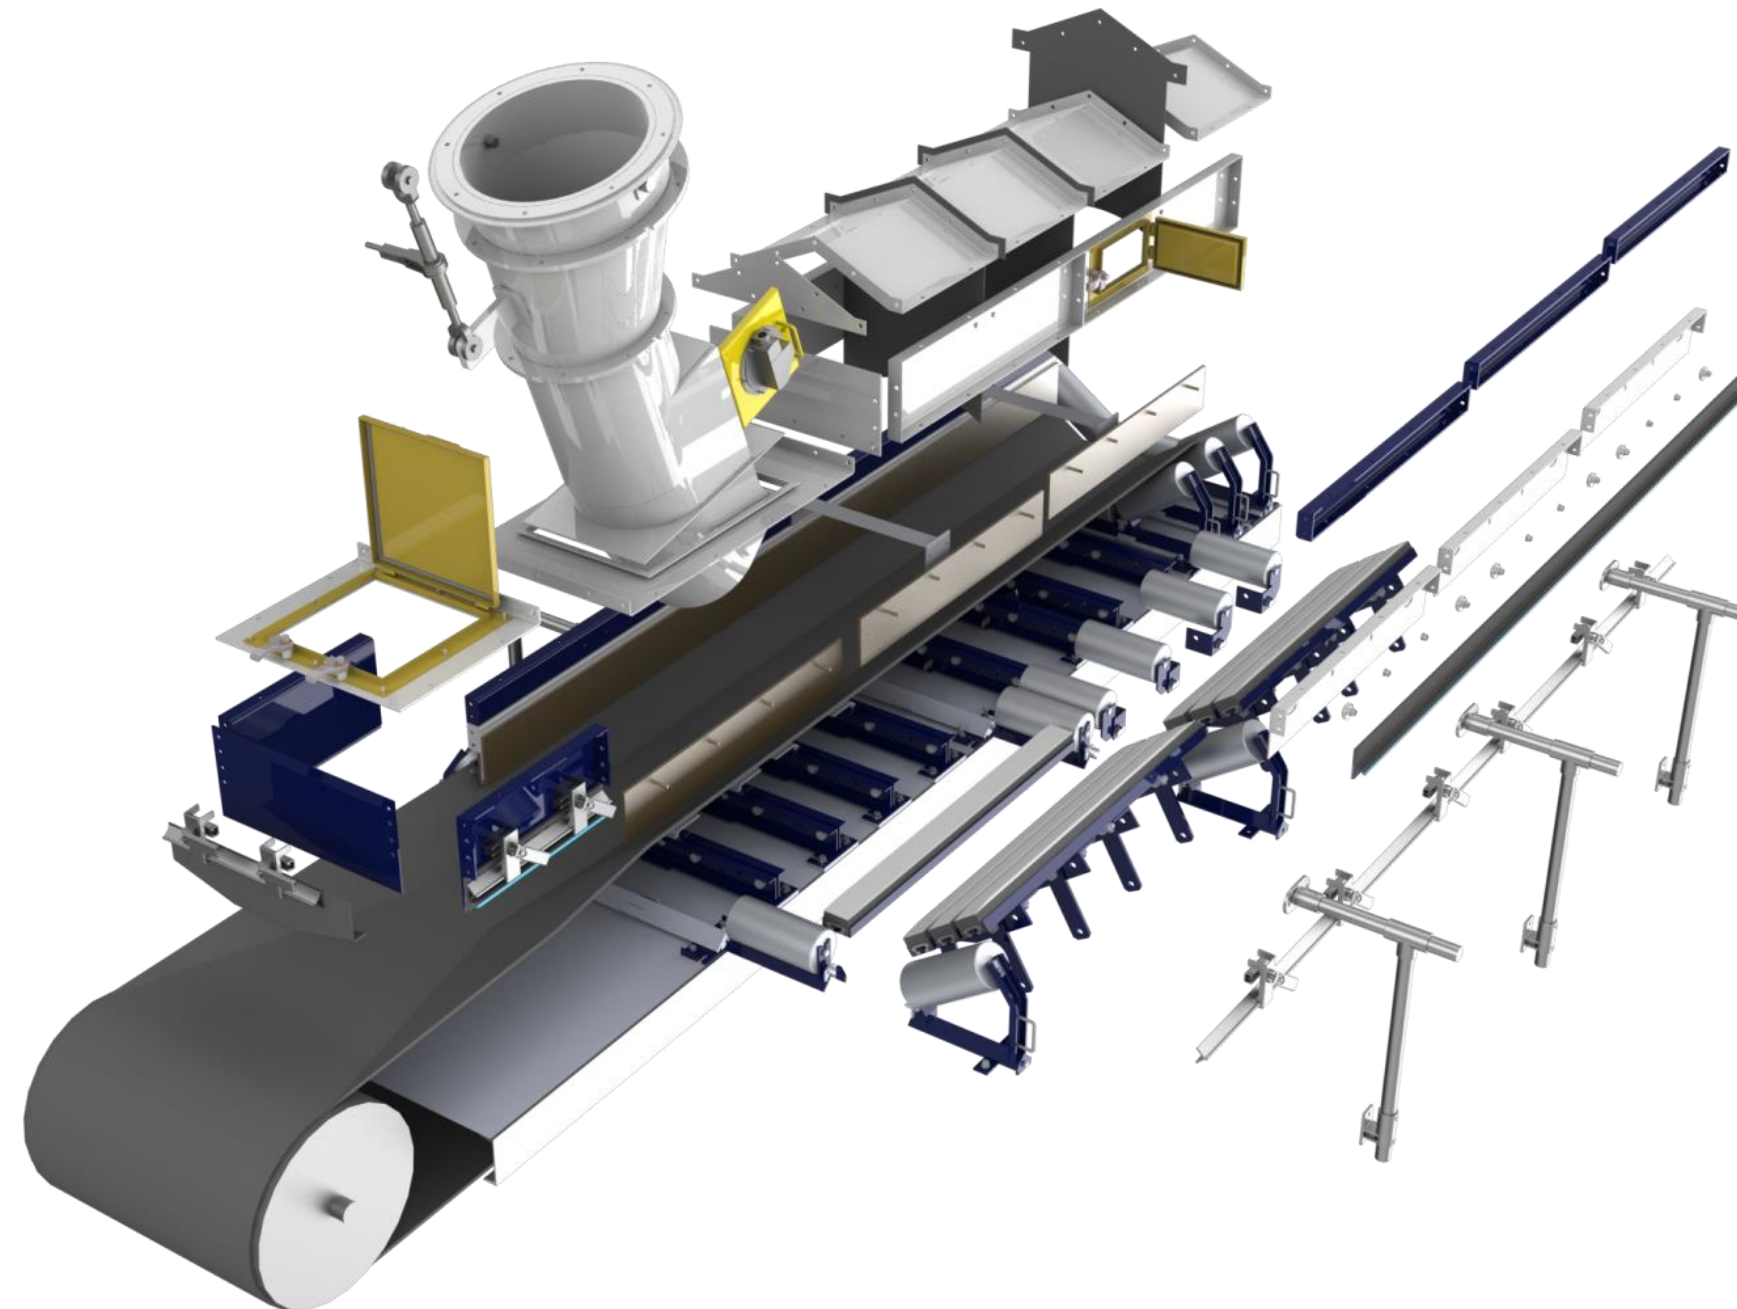

- Allows for replacement of components without special permits or extended shutdowns.
- Installation is simple and affordable, no welding is required.
