Mobile Reporting that Works – Inspections, Incidents & Safety Observations to Make Us Better

Presentation Prepared for

PPSA

BRINGING THE INDUSTRY HOME SAFE
Scott Brothers
Sospes, VP Channels

• Started career in the oil patch
• Helped build small software companies into industry leaders by ensuring the technology was user friendly
• Became interested in worker safety after losing father in oilfield accident
• Understands that dependable communication is key in order to have an effective safety program
Industry Stats

• 10,700 injuries in 2015 costing $400MM = 2.9% injury rate across the board and nearly 4% of production workers, often serious
• That means in a room this size, on average, 8 of you will experience an injury this year
• Unfortunately, on average, 11 people will experience a fatal work-related incident this year
• Bottom line - you work in a dangerous industry
Sospes Software Solution

New tools to improve reporting and encourage engagement making an impact on both improving operations AND worker safety:

• Mobile inspection app
• Mobile incident reporting: injury, property damage, environmental damage, security threats
• Mobile close call reporting
• Mobile safety observation reporting
Incident Management

- Mobile incident reporting and management
- Determine corrective and preventative actions
- Automated OSHA reporting
- Conduct root cause analysis
Root Cause Analysis

- Sospes utilizes the 5 Whys technique
- By repeatedly asking the question “Why” you can peel away layers of symptoms which can lead to the root cause of a problem
- You may assign this root cause investigation to different teams and individuals
Actionable Data

• All reporting can be data-mined to provide an overview of patterns of incidents and leading safety indicators to allow you to focus scarce resources for the best benefit.
Cloud-based Platform

• Because it is hosted, Sospes can be implemented quickly with no hardware requirements, making your IT group happy

• Because it is so intuitive, it is easy to learn and simple to use, making your employees happy

• And because your employees actually use the system, it gets results, making your management happy
